1. INTRODUCTION

The   AG7110 is a digital encoder equipped with 8 HDMI input ports. After encoding, it will output 8 SPTS over UDP or RTP protocols and quickly roll out to your IPTV system, providing a seamless and enjoyable viewing experience for IPTV subscribers.

2. FEATURES

1. Video encoding in H.264 and audio encoding in MPEG and AAC.
2. Supports all major resolutions from 480i through 1080p60
3. Offers 8 IP output address in SPTS
4. Easy configuration with built-in Web UI
5. Rack mounted with two mounting wings

3. SPECIFICATION

HDMI INPUT

Input Connector	HDMI 1.4 *8
VIDEO	
Encoding	H.264
Input Resolution	1920*1080_60P/_50P
	1920*1080_60i/_50i
	1280*720_60P/_50P
Bit Rate	20 ~ 19000 Kbps
AUDIO	
Encoding	MPEG 1 Lay II, AAC
Sample Rate	32 / 44.1 / 48 KHz
Bit Rate	384 Kbps

IP OUTPUT

Output Connector	1*100/1000Mbps port
Transport Protocol	UDP, RTP
Output Transport Stream	SPTS
Broadcasting Mode	Unicast and Multicast

GENERAL

Input Voltage	90 ~264VAC, DC 12V 5A
Power Consumption	
Rack Space	1RU
Dimension (WxHxD)	482*44*260mm
Net Weight	2.56 KG
Language	中文/ English
